Subject Index to Volume 51

A prefix indicating the type of contribution may precede the page number as follows:

LRA:	Lead Review Article	SR:	Special Report
SA:	Special (Signed) Article	NGR:	Nutrition Grand Round
LE:	Letter to the Editor	NSP:	Nutrition-Science-Policy

An entry without a prefix is a Brief Critical Review.

ACQUIRED IMMUNODEFICIENCY SYNDROME (AIDS)
  energy expenditure in, NGR226
  vitamins and minerals in, NGR226
  weight loss in, NGR226
ADOLESCENTS
  calcium intake and skeletal growth of, SA171
  in developing countries, growth predictors for, LRA255
AGING
  body composition and, LRA1
  changes in immune response with, LRA217
  changes in neuroendocrine and immune modulators of metabolism during, LRA1
  lipofuscin accumulation in human tissues with, 205, LE348
  role of iron in brain in disorders associated with, LRA157
  vitamin B_6 deficiency in, LRA217
ALCOHOL CONSUMPTION
  factor in neuropathy epidemic in Cuba, SA349
ALZHEIMER'S DISEASE
  role of iron in, LRA157
AMINO ACIDS
  two-step absorptive process for, LRA95
AMYOTROPHIC LATERAL SCLEROSIS (ALS)
  copper/zinc superoxide dismutase (SOD1) gene mutations associated with, 243
ANDROGENS
  age-related body composition and changes in, LRA1
ANION EXCHANGE RESINS
  as cholesterol-lowering medication, NSP246
ANNOUNCEMENTS
  First Independent Conference of the Society for the Study of Ingestive Behavior, 28
  Hermes Promotion Award for Research on Minerals 1993, 156
  International Advanced Course in the Epidemiology of Geriatric Nutrition, 156
  Recent Advances in Nutritional Management of Gastrointestinal Disorders, 156
  13th Annual Bristol-Myers Squibb/Mead Johnson Nutrition Research Symposium: Nutritional Assessment of Elderly Populations—Measure and Function, 253
  W.O. Atwater Centennial Celebration Symposium, 125
ANTIHISTAMINE
  vitamin C as, LRA313
ANTIOXIDANTS
  cataracts in women and intake of, 84
  possible role in preventing and treating ALS, 243
APOLIPOPROTEIN A-IV
  role in inhibition of food consumption, 273
APOPROTEIN A-1
  role in ethanol-induced protection against coronary heart disease, 151
ARGININE
  supplemental, effect on immune function after surgery, 54
ASCORBIC ACID (*see also* VITAMIN C)
  bioavailability of, in foods and supplements, 301
  cardiovascular risk and intake of, LRA313
  cataracts in women and intake of, 84
  decreased cataract risk and formation with intake of, LRA313
  role against cancer, LRA313
  uptake of, by human neutrophils, 337
ATHEROGENESIS
  lipid oxidation products in food and, LRA33
  low-copper diet and, 88
ATHEROSCLEROSIS
  role of oxidation of polyunsaturated fatty acids in, LRA33
AVERAGE REQUIREMENT
  proposed value for European Community nutrient intake, NSP209

BIFIDOBACTERIA
  fermentation of oligofructose by, SA137
BODY COMPOSITION
  effect of aging on, LRA1
BODY FAT
  zinc supplementation of growth-retarded children and increase in, 268
BODY MASS INDEX (BMI)
  desirable body weight defined in, LRA127
BODY WEIGHT
  mortality and, LRA127

Subject Index to Volume 51

A prefix indicating the type of contribution may precede the page number as follows:

  lipid oxidation products in food and, LRA33
  low-copper diet and, 88
ATHEROSCLEROSIS
  role of oxidation of polyunsaturated fatty acids in, LRA33
AVERAGE REQUIREMENT
  proposed value for European Community nutrient intake, NSP209

BIFIDOBACTERIA
  fermentation of oligofructose by, SA137
BODY COMPOSITION
  effect of aging on, LRA1
BODY FAT
  zinc supplementation of growth-retarded children and increase in, 268
BODY MASS INDEX (BMI)
  desirable body weight defined in, LRA127
BODY WEIGHT
  mortality and, LRA127

BODY WEIGHT CHANGE
mortality and, LRA127
BONE MASS
dietary calcium intake during growth and, SA171
BOVINE SERUM ALBUMIN ANTIBODIES
destruction of pancreatic insulin-producing beta cells by, 79
BRAIN
effect of vitamin B_6 deficiency on development of, LRA193
iron distribution in, LRA157
BREAST-FED INFANTS
cerebral cortex docosahexaenoic acid levels in, 238
decreased incidence of otitis media in, 275
health and nutritional status of, 52

CACHEXIA
human immunodeficiency virus and, NGR226
CALCIUM
bone mass and, SA171
food label health claims with respect to osteoporosis and, NSP90
growth and dietary intake of, SA171
CALCIUM SUPPLEMENTATION
dietary, effect on risk of colon cancer, 109, LE213
hip fractures in elderly women prevented by, 183
CANCER
ascorbic acid as protection against, LRA313
FDA authorization of food labeling health claim with respect to, NSP90
CARDIAC ARRHYTHMIA
in rats, dietary fatty acids protect against, 271
CARDIOVASCULAR DISEASE
ascorbic acid intake and, LRA313
copper deficiency and, 88
dietary fatty acids protect against, 271
trans fatty acids and, 340, 344
β-CAROTENE
cataracts in women and intake of, 84
colorectal cancer risk and dietary intake of, 147
dietary equivalence to retinol, SA199
CAROTENOIDS
bioavailability and bioconversion of, SA199
plant sources versus chemical, human uptake of, SA199
CATARACT
antioxidant nutrition in women and incidence of, 84
ascorbic acid intake and decreased risk and formation of, LRA313
CATS
age-associated loss of carrier-mediated intestinal taurine transport in, 22
$CD4^+$ CELL PROLIFERATION
copper-deficiency-induced impaired production of IL-2 decreases, 307
CELLULAR RETINOL-BINDING PROTEIN TYPE II (CRBPII) GENE
9-*cis*-retinoic acid as activator of, 81
CHILDREN
calcium intake and skeletal growth of, SA171
Iraqi, malnutrition in, SA74
of developing countries, growth failure of, 327

CHOLECYSTOKININ (CCK)
inhibitory effect on fat intake, 181
CHOLESTEROL
atherogenesis and oxidation products of, LRA33
effect of *trans* fatty acids on levels of, 340, 344
ethanol-induced apo A-1 secretion increases efflux of, 151
food label health claims with respect to coronary heart disease and, NSP90
recommendations for diagnosis and treatment of abnormalities in, NSP246
vitamin C intake lowers, LRA313
CHRONIC INFLAMMATION
changes in neuroendocrine and immune modulators of metabolism in patients with, LRA1
CHYLOMICRONS
suppressive effect on food consumption, 273
CIGARETTE SMOKING
body weight, mortality, and, LRA127
factor in neuropathy epidemic in Cuba, SA349
COBALAMIN NEUROPATHY
role of S-adenosylmethionine deficiency in, NGR12
COLON CANCER
ascorbic acid as protection against, LRA313
effect of dietary calcium supplementation on risk for, 109, LE213
effect of fish oil supplementation on risk for, 241
fiber and, NSP57
hyperproliferation in persons at risk for, 241
COLORECTAL CANCER
ascorbic acid as protection against, LRA313
dietary fiber decreases risks for, 147
COPPER ABSORPTION DISORDER
Menkes disease caused by, 235
COPPER DEFICIENCY
effect on interleukin-2 production, 307
hypercholesterolemia and, 305
increase in aortic lipid peroxides in rats caused by, 88
increase in glutathione concentration and HMG-CoA reductase activity caused by, 305
vascular defects and, 188
CORONARY HEART DISEASE
dietary fatty acids protect against, 271
ethanol consumption and lower incidence of, 151
FDA authorization of food labeling health claim with respect to, NSP90
National Cholesterol Education Program risk factors for, NSP246
normal iron status and risk of, 112
recommendations for diet and drug therapy for, NSP246
role of red wine consumption in France in lower incidence of, 185
vitamin E supplementation reduces risk and mortality of, 333
CORTISOL
age-related body composition and changes in, LRA1
COW'S MILK
effect on infants, 79
insulin-dependent diabetes mellitus and, 79
CUBA
food shortages and optic and peripheral neuropathy epidemic in, SA349

CYTOKINES
age-related body composition and changes in, LRA1

DAILY REFERENCE VALUES
FDA's final regulations on nutritional labeling and, SR101
DEMYELINATION
role of S-adenosylmethionine deficiency in, NGR12
DEVELOPING COUNTRIES
efficiency of vitamin A utilization from plant carotenoids in, SA199
growth failure of children in, SA327
marginal malnutrition and human function in, LRA255
zinc deficiency in, 268
DIABETES MELLITUS
insulin-dependent, cow's milk and, 79
DIET
compliance with, 16
high-iron, effect on manganese status, 86
human function and, LRA255
in obese subjects, self-report versus controlled measurements, SA296
LDL cholesterol lowered using, NSP234
low-copper, increase in aortic lipid peroxides in rats fed, 88
maternal, effect on infant outcome, LRA255
vegetarian, nephrotic syndrome treated by, 44
DIETARY FAT
food label health claims with respect to cancer and, NSP90
DIETARY SUPPLEMENTS
bioavailability of ascorbic acid from, 301
FDA's proposed regulations of, NSP278, NSP310
safety limits for intake of, NSP278
1,25-DIHYDROXYVITAMIN D_3 RECEPTOR
role of 9-*cis*-retinoic acid receptor in regulation of gene response to, 303
DOCOSAHEXAENOIC ACID
in cerebral cortex of formula-fed versus breast-fed infants, 238
DOSE-RESPONSE CURVES
balance of essentiality and toxicity of trace elements shown by, LRA287

EGYPT
study of marginal malnutrition and human function in, LRA255
EICOSANOIDS
effect of fish oil on synthesis of, in ulcerative colitis patients, 47
ELDERLY
changes in immune response in, LRA217
changes in neuroendocrine and immune modulators of metabolism in, LRA1
risk of infection and aging immune response in, 106
supplementation with vitamin D_3 and calcium prevents hip fractures in, 183
trends in food consumption by, 20
vitamin and mineral supplementation in, 106
vitamin B_6 status in, LRA217

ELECTRON TRANSPORT
pyrroloquinoline quinone (PQQ) in mammalian systems and, LE26
ENERGY EXPENDITURE
self-reported versus actual, in obese subjects, SA296
ENERGY INTAKE
European Community guidelines for, NSP209
ENTERAL NUTRITION
nutritional support of HIV-infected persons using, NGR226
ENVIRONMENT
role in growth failure in children in developing countries, SA327
ETHANOL
apo A-1 secretion in human hepatocytes stimulated by, 151
cardioprotective effect of, 151
EUROPEAN COMMUNITY
nutrient and energy intakes for, NSP209
EXERCISE
effect on age-related body composition, LRA1
effect on lean body mass, LE25
in obese subjects, self-report versus controlled measurements, SA296

FAMINE RELIEF
recommendations dealing with, NSP116
FAT INTAKE
inhibitory effect of cholecystokinin on, 181
FATTY ACIDS (*see* FREE FATTY ACIDS, MONOUNSATURATED FATTY ACIDS, POLYUNSATURATED FATTY ACIDS, SATURATED FATTY ACIDS, SHORT-CHAIN FATTY ACIDS, *trans* FATTY ACIDS)
FERRITIN
response to iron status, LRA65
risk for heart disease and plasma concentration of, 112
role in iron distribution in brain, LRA157
FIBER
colon cancer and, NSP57
dietary, colorectal cancer risk and, 147
nondigestable, biochemistry of, SA137
FISH OILS
immune function of, LE24
intestinal hyperproliferation reduced by supplementation of, 241
marine, ulcerative colitis treated by, 47
protection against cardiovascular disease, 271
FOLATE
FDA's policy on, NSP358
FOOD
atherogenesis and lipid oxidation products in, LRA33
bioavailability of ascorbic acid from, 301
colon cancer and fiber content of, NSP57
FDA's final regulations on health claims for, NSP90
FDA's final regulations on nutritional labeling of, SR101
reducing disease in, NSP346
FOOD AND DRUG ADMINISTRATION (FDA)
proposed regulations of dietary supplements, NSP278, NSP310

regulations for health claims for foods, NSP90
regulations for nutritional labeling of foods, SR101
FOOD CONSUMPTION
by elderly, trends in, 20
per capita food supply data versus individual, 206
FOOD INTAKE
in AIDS and HIV-positive patients, NGR226
inhibitory effect of cholecystokinin on, 181
per capita food supply data versus individual consumption, 206
role of apolipoprotein A-IV in, 273
self-reported versus actual, in obese subjects, SA296
FOOD LABELS
FDA final regulation on health claims on, NSP90
FDA final regulation on nutrition information on, SR101
FOOD SHORTAGE
factor in neuropathy epidemic in Cuba, SA349
FORMULA-FED INFANTS
cerebral cortex docosahexaenoic acid levels in, 238
health and nutritional status of, 52
FREE FATTY ACIDS
feedback control of lipoprotein lipase activity by, 18
FRENCH PARADOX
inhibition of LDL oxidation by phenolic substances in red wine as clue for, 185
FRUITS
FDA regulation of health claims of, NSP90

GLUCOSE
effect of vitamin E supplementation on utilization of, 339
GLUTAMINE
intestinal mucosal immune function enhanced by total parenteral nutrition enriched by, 152
GLUTATHIONE
copper-deficiency-induced hypercholesterolemia increases metabolism of, 305
GROWTH
calcium intake requirements and, SA171
effect of mild zinc deficiency on, 268
in developing countries, role of environmental contamination in failure, SA327
of children in developing countries, predictors of, LRA255
GUATEMALA
effect of zinc on growth performance of children in, 268

HDL CHOLESTEROL
effect of *trans* fatty acids on levels of, 340, 344
recommendations for diagnosis and treatment of abnormalities in, NSP246
role in ethanol-induced protection against coronary heart disease, 151
HEALTH CLAIMS
FDA's final regulations on, NSP90
of dietary supplements, FDA's proposed regulations for, NSP278, NSP310
of folate, FDA's proposed regulations on, NSP358
HEMEPROTEINS
riboflavin protects tissues from oxidative injury caused by, 149
HIGH DENSITY LIPOPROTEINS (HDL) *see* HDL CHOLESTEROL
HIP FRACTURES
in elderly women, vitamin D_3 and calcium supplementation prevent, 183
HMG-CoA REDUCTASE
hepatic, copper-deficiency-induced hypercholesterolemia increases activity of, 305
HMG CoA REDUCTASE INHIBITORS
as LDL cholesterol-lowering medication, NSP246
HUMAN FUNCTION
effect of marginal malnutrition in developing countries on, LRA255
HUMAN GROWTH HORMONE
age-related body composition and changes in, LRA1
nutritional status of HIV-infected patients altered by, NGR226
HUMAN HEPATOCYTES
ethanol-stimulated apo A-1 secretion in, 151
HUMAN IMMUNODEFICIENCY VIRUS (HIV) INFECTION
nutritional status compromised by, NGR226
vitamin B_6 deficiency and, LRA217
HUMAN NEUTROPHILS
uptake of ascorbic acid by, 337
HUNGER
world declaration on, SR41
HYPERLIPIDEMIA
of nephrotic syndrome, vegetarian diet for treatment of, 44
HYPERPROLIFERATION
in colonic crypts, effect of fish oil supplementation on, 241
HYPERSENSITIVITY SKIN RESPONSE
delayed-type, reduced with vitamin B_6 deficiency, LRA217
HYPERTENSION
FDA regulation of food label health claim associating sodium and, NSP90
vitamin C and, LRA313
HYPOVITAMINOSIS A
efficiency of plant sources of vitamin A in countering, SA199

IMMUNE FUNCTION
effect of arginine on following surgery, 54
effect of copper deficiency on, 307
of fish oil to *Salmonella* infection, LE24
of intestinal mucosa, effect of glutamine in parenteral solutions on, 152
role of vitamin B_6 deficiency in, LRA217
IMMUNE RESPONSE
against environmental contamination, effect on growth, SA327
humoral and cell-mediated, effect of vitamin B_6 deficiency on, LRA217
of elderly, vitamin B_6 deficiency and, LRA217
of elderly, nutrient-induced improvement in, 106
vitamin C and, LRA313
IMMUNOSTIMULATION
by contaminated environment, effect on growth, SA327

INFANTS
calcium intake and skeletal growth of, SA171
effect of cow's milk on, 79
effect of maternal diet on outcome of, LRA255
effect of maternal vitamin B_6 deficiency on behavior of, LRA193
in developing countries, growth predictors for, LRA255
Iraqi, malnutrition in, SA74
INFECTIOUS DISEASES
supplementation-induced improved immune response reduces risk of, 106
vitamin C and, LRA313
INSULIN
age-related body composition and changes in, LRA1
effect of vitamin E on hepatic response to, 339
INTERLEUKIN-1
age-related body composition and changes in, LRA1
INTERLEUKIN-2
effect of copper deficiency on production of, 307
INTERMEDIARY METABOLISM
role of new retinoic acid receptors (RXRs) in, 81
INTERNATIONAL CONFERENCE ON NUTRITION
nongovernmental perspective on, NSP118
review of, NSP122
INTESTINAL MUCOSA
glutamine-enriched TPN enhances immune function of, 152
INULIN
biochemistry of oligofructose derived from, SA137
IRAQ
malnutrition in children of, after Gulf War, SA74
IRON
dietary heme and nonheme, effect on manganese status, 86
in central nervous system, LRA157
response of ferritin genes to cellular increase in, LRA65
risk for heart disease and normal status of, 112
vitamin C and absorption of, LRA313
IRON DEFICIENCY
role in attention deficit and behavior, LRA157
role in brain metabolism, LRA157
IRON-DEFICIENCY ANEMIA
role in increased risk of preterm delivery, 49
IRON REGULATORY ELEMENT BINDING PROTEIN (IRE-BP)
effect on ferritin mRNA translation, LRA65

KENYA
study of marginal malnutrition and human function in, LRA255

LACTATE
as product of oligofructose fermentation, metabolism of, SA137
LDL CHOLESTEROL
effect of *trans* fatty acid intake on level of, 340, 344
recommendations for diagnosis and treatment of abnormalities in, NSP246
red wine phenolic compounds inhibit oxidation of, 185
role of oxidation of in atherosclerosis, LRA33
vitamin C as antioxidant against oxidation of, LRA313

LIPID OXIDATION PRODUCTS
atherogenesis and, LRA33
LIPID PEROXIDES
copper deficiency and increase in, 88
LIPOFUSCIN
identification of compound in, 205, LE348
LIPOPROTEIN LIPASE
feedback control by free fatty acids of activity of, 18
LIPOXYGENASE METABOLITES
role in pathogenesis of ulcerative colitis, 47
LONG-TERM POTENTIATION
role of *N*-methyl-D-aspartate (NMDA) receptors in, LRA193
LOW BIRTH WEIGHT
iron-deficiency anemia in increased risk of, 49
LOW DENSITY LIPOPROTEINS (LDL) *see* LDL CHOLESTEROL

LOWEST OBSERVED ADVERSE EFFECT LEVEL (LOAEL)
for nutrients, data acceptability criteria and availability for identification of, NSP278
LOWEST THRESHOLD INTAKE
proposed value for European Community nutrient intake, NSP209

MALNUTRITION
human immunodeficiency virus and, NGR226
in Iraqi children after Gulf War, SA74
marginal, effect on human function, LRA255
world declaration on, SR41
MANGANESE
effect of dietary iron on, 86
MENKES DISEASE
candidate gene accountable for, 235
META-ANALYSIS
of studies on association of dietary fiber intake and colorectal cancer risk, 147
METHEMOGLOBIN REDUCTASE
NADH-dependent, protective effect of riboflavin mediated by, 149
METHYL-GROUP DEFICIENCY
cobalamin neuropathy related to, NGR12
MEXICO
study of marginal malnutrition and human function in, LRA255
MICRONUTRIENTS
in developing countries, inadequate intake of, LRA255
MINERAL SUPPLEMENTATION
effect on immune response and risk of infection in elderly, 106
MINERALS
FDA's proposed regulations of, NSP278, NSP310
safety limits for intake of, NSP278
MONOUNSATURATED FATTY ACIDS
effect on arrhythmia in rats, 271
MORTALITY
body weight and, LRA127
MULTIPLE SCLEROSIS
role of iron in, LRA157
MYOCARDIAL INFARCT
normal iron status and risk of, 112

n—3 FATTY ACIDS
effect on cardiac arrhythmia in rats, 271
role in development of human nervous system, 238
N-METHYL-D-ASPARTATE (NMDA) RECEPTOR
effect of vitamin B_6 deficiency on function of, LRA193
role in long-term potentiation, LRA193
N-RETINYLIDENE-N-RETINYLETHANOLAMINE
component of lipofuscin in retina, 205, LE348
NATIONAL CENTER FOR HEALTH STATISTICS (NCHS)
as reference standard for determining health of infants, 52
NATIONAL DISASTERS
recommendations dealing with nutrition and relief operations in, NSP116

NATIONWIDE FOOD CONSUMPTION SURVEYS
trends in food consumption by elderly shown by, 20
use of per capita food supply data versus individual consumption in, 206
NEPHROTIC SYNDROME
vegetarian diets for treatment of, 44
NEURAL TUBE DEFECTS
U.S. policy on folic acid used to prevent, NSP358
NEUROENDOCRINE
aging and changes in, LRA1
body composition and, LRA1
NEUROPATHY
optic and peripheral, in Cuba, role of nutritional deficiency in, SA349
role of cobalamin deficiency in pathogenesis of, NGR12
NIACIN
as cholesterol-lowering medication, NSP246
NITRIC OXIDE
altered interaction with vascular smooth muscle cells caused by copper deficiency, 188
NUTRIENT CONTENT CLAIMS
FDA's final regulations on, SR101
NUTRIENT INTAKE
European Community guidelines for, NSP209
NUTRITION
in disasters, recommendations dealing with, NSP116
international conference on, NSP118, NSP122
neuropathy in Cuba and deficiency in, SA349
world declaration on, SR41
NUTRITION COLLABORATIVE RESEARCH SUPPORT PROGRAM (CRSP)
effects of marginal malnutrition on human function studied by, LRA255

Gorbach, SL, Knox, TA, and Roubenoff, R: "Interactions Between Nutrition and Infection with Human Immunodeficiency Virus," NGR226
Metz, J: "Pathogenesis of Cobalamin Neuropathy: Deficiency of Nervous System S-Adenosylmethionine?" NGR12
NUTRITION LABELING
FDA's final regulations on, SR101
NUTRITION RESEARCH
new paradigms for, LRA287
NUTRITION-SCIENCE-POLICY
Dietary Supplements: Rationale for Regulation, NSP310
Fiber and Colon Cancer: Does the Current Evidence Justify a Preventive Policy?, NSP56
Folate and Neural Tube Defects: US Policy Evolves, NSP358
New Recommendations for the Diagnosis and Treatment of Plasma Lipid Abnormalities, NSP246
Proposed Nutrient and Energy Intakes for the European Community: A Report of the Scientific Committee for Food of the European Community, NSP209
Recommendations Dealing with Nutrition and Relief Operations in Times of Disaster, NSP116
Reducing Foodborne Disease—What Are the Priorities? NSP346

Safety Limits for Nutrient Intakes: Concepts and Data Requirements, NSP278
The FDA's Final Regulations on Health Claims for Foods, NSP90
The International Conference on Nutrition: A Nongovernmental Perspective, NSP118
The International Conference on Nutrition: Giving Nutrition a Human Face, NSP122

OBESITY
diet and exercise and, SA296
increased mortality and morbidity and, LRA127
self-reported and actual energy intake and physical activity in, SA296
OLIGODENDROCYTES
role in multiple sclerosis, LRA157
OLIGOFRUCTOSE
biochemistry of, SA137
caloric value of, SA137
OSTEOPOROSIS
calcium and vitamin D_3 supplementation for, 183
FDA authorization of food labeling health claim with respect to, NSP90
OTITIS MEDIA
effect of breast feeding on incidence of, 275
OXIDATIVE INJURY
from absorption of lipid oxidation products, LRA33
riboflavin protects tissues against, 149
to brain, role of iron in, LRA157
vitamin E status and, LRA33

PHENOLS
in red wine, LDL oxidation inhibited by, 185
POLYUNSATURATED FATTY ACIDS
atherosclerosis risk and oxidation of, LRA33
protect against arrhythmia in rats, 271
POPULATION REFERENCE INTAKE
proposed value for European Community nutrient intake, NSP209
PRETERM DELIVERY
iron-deficiency anemia increases risk of, 49
PROLACTIN
age-related body composition and changes in, LRA1
PROVITAMIN A
human nutriture and plant sources of, SA199
PUBLIC HEALTH
malnutrition—infection complex in developing countries as problem in, SA327
PYRROLOQUINOLINE QUINONE (PQQ)
in mammalian systems, electron transport and, LE26

RATS
dietary fatty acids and protection against experimental cardiac arrhythmias in, 271
effect of vitamin B_6 deficiency on postnatal development and brain of, LRA193
glutamine in parenteral solutions enhances intestinal mucosal immune function in, 152
low-copper diets increase aortic lipid peroxides in, 88
satiating effect of fats tested in, 181
RECOMMENDED DIETARY ALLOWANCES (RDA)
for calcium, peak bone mass and, SA171
for vitamin C, LRA313
vitamin/mineral supplementation of elderly above, 106
RED WINE
inhibition of LDL oxidation by phenolic substances in, 185
REFERENCE DAILY INTAKE
FDA's final regulations on nutritional labeling and, SR101
9-*cis*-RETINOIC ACID
as ligand for retinoic acid receptors (RXRs), 81
role in regulation of 1,25-dihydroxyvitamin D_3, 303
RETINOIC ACID-X RECEPTORS (RXR)
discovery and functions of, 81
role in regulation of 1,25-dihydroxyvitamin D_3, 303
RETINOL
dietary equivalency of carotenes in terms of, SA199
RHEUMATOID ARTHRITIS
neuroendocrine and immune mediators of metabolism and, LRA1
vitamin B_6 deficiency and, LRA217
RIBOFLAVIN
cataracts in women and intake of, 84
protects tissues against oxidative injury by hemeproteins, 149

S-ADENOSYLMETHIONINE DEFICIENCY
role in cobalamin neuropathy, NGR12
SAFETY LIMITS
of nutrient intake, concepts and data requirements of, NSP278
SANITATION
role in growth of children in developing countries, SA327
SATIETY
role of apolipoprotein A-IV in, 273
SATURATED FAT
food label health claims with respect to coronary heart disease and, NSP90
SATURATED FATTY ACIDS
effect on arrhythmia in rats, 271
SHORT-CHAIN FATTY ACIDS
as fermentation product of oligofructose, biochemistry of, SA137
SOY PROTEIN
hyperlipidemia of nephrotic syndrome treated with diet of, 44
SPECIAL (SIGNED) ARTICLES
Forbes, GB: "Diet and Exercise in Obese Subjects: Self-Report Versus Controlled Measurements, SA296
Matkovic, V, and Ilich, JZ: "Calcium Requirements for Growth: Are Current Recommendations Adequate?" SA171
Roberfroid, M, Gibson, GR, and Delzenne, N: "The Biochemistry of Oligofructose, a Nondigestible Fiber: An Approach to Calculate Its Caloric Value," SA137
Solomons, NW, and Bulux, J: "Plant Sources of Provitamin A and Human Nutriture," SA199
Solomons, NW, Mazariegos, M, Brown, KH, Klasing, K: "The Underprivileged, Developing

Country Child: Environmental Contamination and Growth Failure Revisited," SA327
Smith, MC, and Zaidi, S: "Malnutrition in Iraqi Children Following the Gulf War: Results of a National Survey," SA74
Tucker, K, and Hedges, TR: "Food Shortages and an Epidemic of Optic and Peripheral Neuropathy in Cuba," SA349
SPECIAL REPORTS
Mandatory Nutrition Labeling—FDA's Final Rule, SR101
World Declaration on Nutrition, SR41
STEM-AND-LOOP STRUCTURE
of ferritin mRNAs, interaction with IRE-BP, LRA65
SUNFLOWER SEED OIL
protection against cardiovascular disease, 271
SUPEROXIDE DISMUTASE (SOD1) GENE
role of mutations of in familial amyotrophic lateral sclerosis, 243

T-CELL PROLIFERATION
copper-deficiency-induced impaired production of IL-2 decreases, 307
TAURINE UPTAKE
role of loss of carrier-mediated intestinal taurine transport in adult cats and, 22
TOTAL PARENTERAL NUTRITION
glutamine-enriched, effect on intestinal mucosal immune function, 152
nutritional support of AIDS patients using, NGR226
TOXINS
role in neuropathy epidemic in Cuba, SA349
TRACE METALS
deficiency and essentiality of, LRA287
research activities on, LRA287
trans FATTY ACIDS
cardiovascular disease and, 340, 344
TRANSFERRIN
role in iron distribution in brain, LRA157
TRANSFERRIN RECEPTORS
role in iron distribution in brain, LRA157
TRIACYLGLYCEROL
feedback control of lipoprotein lipase activity by free fatty acids released by hydrolysis of, 18
TUMOR NECROSIS FACTOR
age-related body composition and changes in, LRA1

ULCERATIVE COLITIS
role of marine fish oils in treating, 47
UREMIA
vitamin B_6 deficiency and, LRA217

VASCULAR FUNCTION
copper deficiency and impairment of, 188
VEGETABLE OILS
hydrogenated versus unhydrogenated, role in cardiovascular disease, 340, 344
VEGETABLES
bioconversion of carotenoids from, SA199
FDA regulation of health claims of, NSP90
VITAMIN A
bioconversion of carotenoids to, SA199
decreased risk of cataract with intake of, 84
plant versus animal sources of, SA199
role of cellular retinol-binding protein type II in metabolism of, 81
VITAMIN B_6
brain and cognitive development and, LRA193
VITAMIN B_6 DEFICIENCY
during gestation and lactation, effect on *N-methyl-D-aspartate receptors, LRA193*
immune competence and, LRA217
VITAMIN C (*see also* ASCORBIC ACID)
cataracts in women and intake of, 84
colorectal cancer risk and dietary intake of, 147
new roles and new requirements for, LRA313
VITAMIN D_3 SUPPLEMENTATION
hip fractures in elderly women prevented by, 183
VITAMIN E
as protector of polyunsaturated fatty acids against oxidation, LRA33
cataracts in women and intake of, 84
VITAMIN E DEFICIENCY
increase in lipofuscin and, 205, LE348
VITAMIN E SUPPLEMENTATION
coronary heart disease and, 333
effect on glucose utilization and hepatic response to insulin, 339
VITAMIN SUPPLEMENTATION
bioavailability of nutrients from, 301
coronary heart disease and, 333
effect on immune response and risk of infection in elderly, 106
VITAMINS
FDA's proposed regulations of, NSP278, NSP310
safety limits for intake of, NSP278

WHOLE OXIDIZED OILS
atherogenesis and, LRA33

YOUNG ADULTS
calcium intake and skeletal mass of, SA171
in developing countries, growth predictors for, LRA255

ZINC DEFICIENCY
effect on growth performance, 268
